(1) The original carriageway passed what would have been the main entrance to *Fotheringham House*. However it passed over Felix Martin's property (now Martindale Nursing Home). Felix Martin built a stone wall blocking off the carriageway which resulted in extensions to the then rear of the house to become the new main entrance. To spite Felix Martin, Thomas Fotheringham built a two storey bay window annex overlooking the Martin property. Evidence of the original carriageway still exists.
