

OVP Help for Students and Teachers

Install the Desktop Recorder to a PC

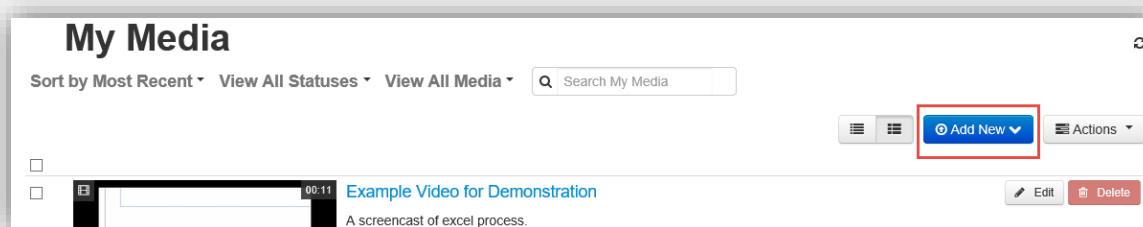

The Desktop Recorder is a free tool to capture; screen and webcam footage, audio and slide narration. Trim video, add a title and direct upload to My Media. Easily record in sync with a PowerPoint and combine multiple sources. As it is a desktop program it is unavailable on tablet or mobile devices.

- 1 Log into *FLO* > Open *My Media*, found in the menu under your name.

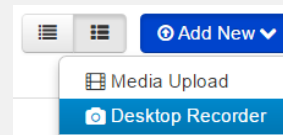

- 2 Click Add New.

- 3 Select *Desktop Recorder*.

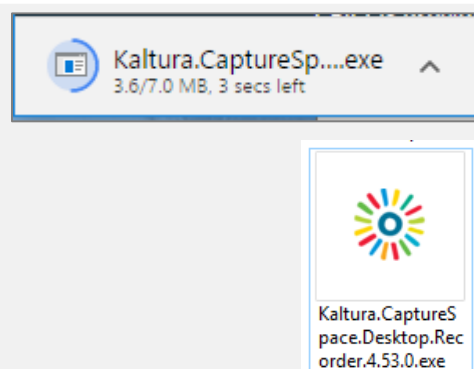

If it is already installed it will launch otherwise follow the prompts.

- 4 Scroll down, check the system requirements and click *Download for Windows*

- 5 Open the installation file when it has completed downloading.

- 6 When prompted click run and authenticate.

To start recording open the program or launch from the *Add New* button in *My Media*.

? Look for the help button in *My Media* and the video player for specific support.
