FAQs: basic edit tools in My Media

Can I edit a video after I have uploaded it?

You can update the filename, description, add closed captions, thumbnails, slides, chapters and trim the video once it has been uploaded to My Media. [help doc](#).

You can trim the start or end of a video in My Media but content within a video cannot be edited. For example, you could remove a title slide with a date to make the video reusable, or you could remove the start/end of video to hide video set up footage.

The timeline is grey?

When editing a video if the timeline is grey this means it hasn't loaded correctly. Click play and it will load. If this doesn't work try a different browser, as the timeline requires HTML5 or Flash.

What is the launch Editor?

Click the launch editor button at the top right of the timeline to preview a new editing interface.
